WISE NUT

Planning to incorporate lifestyle changes, like eating more plant-based foods, reducing sugar intake or avoiding gluten?

A healthy diet does not have to mean you're stuck eating boring food. Wise Nut is free from added sugar, sweeteners and synthetic food additives. It gets its rich flavor from hazelnuts sourced in Georgia, an eastern coast of the Black Sea. Glorious little seeds of Pure Madagascar Vanilla elevate Wise Nut to the next level, transforming it into a perfect gourmet treat.

Wise Nut is perfect for your smoothie bowl, pancake or oatmeal and is an ideal source of healthy fats and protein for your breakfast or snack.

Even if you do not have a restrictive diet and are enjoying any type of a food, Brave Pumpkin is a smart choice for anyone. Lightly toasted pumpkin seeds are ideally seasoned with a hint of garlic, chili pepper and coriander. This pesto-like delicious treat is an ingenious update from traditional nut butters and a good introduction to Georgian flavors. Brave Pumpkin perfectly complements salads, sandwiches and pasta.

There are 129 ways to eat Bright Almond (other than straight with a spoon). It makes for a hearty salad dressing or a chocolate cup sauce, ideal for overnight oats or chewy power bars – it goes well with everything. Bright Almond is made with slightly toasted almonds and pure Madagascar vanilla, which explains everything.

Georgian peanuts have an earthy and distinctive, sweet flavor. That is why Clever Peanut is one of the nation's favorites. A great source of vitamin E, vitamin B3, vitamin B6, folate, magnesium, copper and manganese. It's a clever way to indulge, while pampering yourself with essential, wholesome nutrients.

Perfect Pecan's decadent flavor of toasted pecans and pure Madagascar vanilla satisfies your sweet tooth leaving you feeling guilt-free. It has zero added sugar, but provides a whole host of important nutrients, including protein, healthy fats, fiber, vitamins and minerals.

“ Ideal source of healthy fats and protein. ”
